

Title: Improving the professional competence and increasing the social development of prison staff

DURATION

12/2015-11/2017 (24 mesi)

ABSTRACT

In Turkey, people graduated from high school or college can be a prison officer . No specific education is required to be a prison officer. Therefore, the framework for certificate of competency that is compatible to the European Union, defining proficiency of prison officers and educational modules to obtain competency are needed. Improving the professional qualifications of prison officers is needed to increase the rate of reintegration of prisoners.

The experience of the project partners will enable developing a framework professional competence certificate and necessary educational module . The competency of prison officers will be defined in compliance with the European Quality Framework (EQF).

OBJECTIVES

The main objective of the project is to facilitate the social rehabilitation of prisoners by establishing specific training programs aimed at prison guards.

ACTIVITIES

The activities under the project are:

1. construction of a research aimed at defining the core competencies that prison officers should possess;
2. Definition of a training course for prison staff able to bridge the gap between the current situation and the one proposed;
3. realization of a pilot project concerning the implementation of the training courses developed.
